▶ ABOUT BA

BACKGROUND

Established in 1990 and operating from three state of the art factories; one in Cookstown in Co. Tyrone and two in Yorkshire at Rotherham and Doncaster, we are one of the largest producers in Europe supplying small, medium and large manufacturers with bespoke, made-to-measure doors, contract volume orders and the largest ranges of matching accessories available in the market today.

BA is a market leader, and we use feedback from our customers to help in our decisions on new products and colours. Regular investment in leading edge software has resulted in a fully linked system from order entry through to production planning, production processing and despatch with the order system updated at every stage of production enabling us to communicate accurate order status information on request.

Order Acknowledgements are automatically emailed or faxed to each customer containing full details, prices and estimated despatch dates. Real-time information on your order is available either by contacting our sales office or can be accessed directly on the web site using MyBA (See Page 12-13 registered customers only).

Over the years the accomplishments made by BA have been recognised and we have been awarded many national and local business awards, for design, service, supply and product quality.

By utilising leading edge technology and developing innovative processes, practises and procedures in all aspects of our business, we are fixed firmly as the market leader in the furniture components sector within Europe for the years to come.

QUALITY

All of our production and storage areas are heated using eco friendly systems fuelled using the company's wood waste and this combined with good humidity control ensures consistency in the quality of our raw materials brought into production. This is key to efficiency in production and therefore the quality of the end products and we regularly test and monitor the quality and reliability of both current and new products and materials.

Our dedicated Quality Control Department monitor closely the production procedures and carry out regular checks to evaluate quality at all points of the production process. Using our own ovens and test equipment we can test internally to FIRA regulations ensuring the best quality products at all times.

The mark of responsible forestry

Look for FSC® certified products. License code FSC-C013906

Look for PEFC™ certified products.

Cert No. PC0051

PROCESS

From our purpose built facilities the use of the very latest in manufacturing machinery and technologies allows us to produce consistently high quality products.

Manufacturing processes designed and developed over many years based on experience within the market and on our own concept designs are the bedrock of our production expertise. A total of 16 CNC routers including the largest automated board store and router complex in Europe, create the designs on colour matched board and advanced internal software uses an optimising system to plan production efficiently based on colour batches.

The production process for our acrylic doors uses the latest CNC edge banding lines which have been specifically designed to edge high gloss and acrylic materials. The PUR (Poly Urethane Reactive) gluing system applies a high heat & water resistant glue line. The high precision trimming, polishing & buffing units leave a perfect edge time after time.

Our pressed doors and accessories are produced on a total of 6 pressing lines in our Cookstown and Doncaster factories; 4 of which are fully automated robotic gluing, pressing and trimming lines, which are the most advanced of their kind in the world.

The company's software calculates lay-up for the pressing process and this information is sent directly to screens for the press controllers, adding to the end product quality and with added benefits over more traditional operator manual input. Advanced in-line cleaning machinery at pre-gluing and post pressing stages maintain a consistent high level of product at all stages of processing prior to final inspection, drilling and packing.

5 piece doors are created on our own moulding and wrapping lines in Doncaster where experience goes back many years, and again the use of the latest equipment and materials in production and assembly means these are among the best 5 piece doors available today.

With all our door ranges and accessories, final inspection is a crucial part of the process to ensure that all products leave our factories in first class condition.

Packing for despatch is important and every effort is made to ensure that customers receive their goods in the same condition as they leave the factory. Sturdy cardboard boxes produced on our own box making machinery is used along with side and corner protection. We deliver daily throughout the UK and Ireland.

PRONTO RANGE INTRODUCTION

A stunning collection of standard sized kitchen doors and drawer fronts in a choice of 53 finishes.

This collection of elegantly designed kitchen doors and drawer fronts are available in 53 on-trend finishes. Choose from a combination of style and elegance that will instill lasting personality and character by bringing out the very best in any home.

- Choose from 53 door options.
- Available in standard sized doors, drawer fronts and matching accessories.

- Firbeck, Jayline, Rothwell, Malton and Wilton ranges are available in made to measure sizes.
- Finishes available in painted timber, supermatt, supergloss and wood grain effect.

HARVARD RANGE DOORS

Brochure 26-28

RANGE SPECIFICATION

19mm Shaker style door with bevelled internal profile. Doors are a two-piece construction, with a 15mm MDF base panel and 4mm Shaker framing, pressed together with a durable foil. Drawer fronts are 18mm slab construction. Available in four on-trend colours – each has a Supermatt finish giving the effect of a smooth matt lacquered door but with the durability of a pressed PET foil. All Harvard doors have a white reverse. Glazed doors have clear glass.

CORNER CABINETS

900 standard 560D base cabinet = 715 x 335 + 715 x 313, use standard left & right hinge fit.

600 standard 300D wall cabinet = 715 x 296 + 715 x 274, use standard left & right hinge fit.

928 ClicBox base cabinet = 2 x 715 x 335, use bi-fold hinges.

628 ClicBox wall cabinet 720H = 2 x 715 x 274, use bi-fold hinges.

628 ClicBox wall cabinet 900H = 2 x 895 x 274, use bi-fold hinges.

CERTIFICATION

The Harvard range is FSC certified.

ZURFIZ RANGE INTRODUCTION

The FIRA Gold Award is the ultimate mark of product excellence within the furniture industry and provides a solid reassurance that a product meets all necessary standards.

A selection of Zurfiz doors have been tested by FIRA and achieved the FIRA gold award. Tests : BS 6222-3.

This stunning made to measure collection of ultra modern doors are available in 29 colour options - a mix of ultragloss solid colours, stone and metal effects, woodgrains and metallics along with supermatts and all rounded off by a brushed metal.

To add to the choice and flexibility of the range the doors are also offered with 3 edge options, matching edge, plywood effect and a stunning glass effect 3D edge producing a deceptively real glazed appearance.

- Available in kitchen, bedroom and bathroom made to measure sizes.
- 18mm MDF & MFC finishes in Acrylic, Melamine, PET and PVC materials with stunning gloss and matt levels.
- Edging applied using PUR (Poly Urethane Reactive) glue with a much higher heat and moisture resistance than normal hot melt glues.
- A selection of Zurfiz doors are FSC® or PEFC™ certified and have attained the FIRA gold award.
- The Zurfiz range carries a 6 year warranty.

TECHNICAL SPECIFICATION

- All doors and drawer fronts are 18mm thick.
- Available in any size within the specifications below.
- Minimum height 100mm, maximum height 2540mm.
- Minimum width 100mm, maximum width 1200mm.
- Woodgrain direction on drawer fronts is horizontal, 100mm - 282mm High.
- Woodgrain direction on doors is vertical, 283mm - 2540mm High.
- Horizontal woodgrain can be supplied on doors up to 1200mm High, please specify when ordering.
- See page 40 & 41 for details of colours and board matches.

ZURFIZ, BELLA VENICE & VALORE INSET HANDLE DETAILS

Note: when ordering do not order the handles separately as we will automatically add them to your order.

DRAWER FRONTS

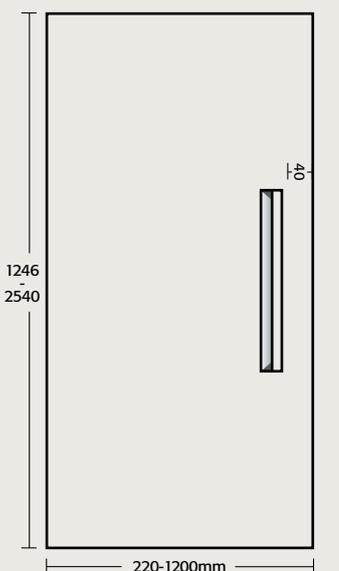

Drawer fronts (100mm H > 282mm H) are supplied with the handle in a horizontal position.

KITCHEN DOORS

Doors (283mm H > 1245mm H) are supplied as standard, unless requested, with the handle in a horizontal position.

Note: Doors can be used with the handle position top or bottom as the handle is reversible.

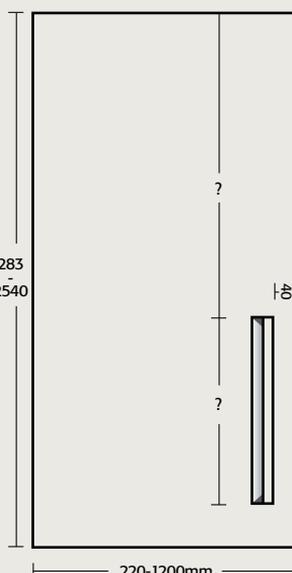

TALL DOORS

Doors (1246mm H > 2540mm H) are supplied as standard with the handle centred in a vertical position.

A 330mm handle will be supplied as standard.

Note: Doors can be used as left or right hand as the handle is reversible.

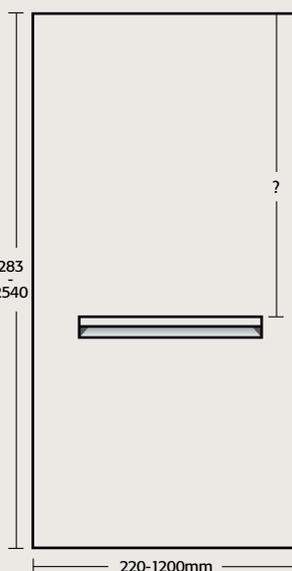

ALTERNATIVE HANDLE POSITIONS

Doors (283mm H > 2540mm H)

We can supply the handle in any vertical left or right height position. You can choose any of the six handle lengths.

When ordering:

- state handle length
- state distance from the top edge of the door to the top of the handle
- state left or right position.

Doors (283mm H > 2540mm H)

We can supply the handle fitted in a horizontal position.

When ordering:

- state distance from the top edge of the door to the top of the handle

Handle lengths supplied as per table below.

When ordering doors with hinge holes state left or right hand door and handle position.

High Gloss Colours

High gloss finishes are manufactured using a heavier gauge vinyl and definition can be less sharp on doors, panels and accessories with more detailed designs.

The following door styles are not available in gloss colours - Aldridge, Broadway, Elland, Euroline, Gothic, Integra, Knebworth, Newport, Oxford, Segreto, Shaker, Surrey, Tullymore, Warwick and Westbury.

BELLA COLOUR OPTIONS & BOARD MATCHES

The manufacturers board references listed below are for guidance only. Check colour samples from your board supplier for your own approval. As an alternative to matching melamine boards we can supply you with

matching vinyl wrapped panels or matching self adhesive vinyl (see pages 63, 65 & 69). Note: The backs of High Gloss Colours are standard matt finish.

Paintable (P)

Paintable Vinyl

Paintable vinyl is suitable for hand or spray painting.

For details on paint type, application or approved painting service companies see page 117 for download information.

Note for wood grain/patterned finishes:

Due to variance in pattern repeat and production processes we cannot guarantee a matched pattern/book match on door runs/combinations or drawer packs.

CERTIFICATIONS:

Colours marked (P) are PEFC Certified.

Colours marked (F) are FSC Certified.

The following door styles are not available in gloss colours: Aldridge, Broadway, Elland, Euroline, Gothic, Integra, Knebworth, Newport, Oxford, Segreto, Shaker, Surrey, Tullymore, Warwick and Westbury.

Not available in London Concrete

To order radius tops to suit radius rail see page opposite.

▶ BELLA VINYL WRAPPED PANELS & TOPS

SQUARE, PROFILED, T&G, SHAPED AND SAHARA PANELS

- All panels/tops are available in 18mm and 25mm thick options. See page 48-49 for Back Colour on 18mm. The Back Colour on 25mm is white and FSC® certified. A 3mm edge profile is supplied on 25mm panels.
- 18mm and 25mm panels/tops are available in all colours except T&G panels which are not available in high gloss colours.
- Max size we can supply is 2540mm long x 1200mm deep.
- Prices for 18mm panels/tops are per m^2 , except Sahara carved panels - per m^2 .
- Prices for 25mm panels/tops are per m^2 , except Sahara carved panels - per m^2 .
- Sahara Carved Panels are designed to allow multiple panels to be joined to give a continuous pattern.
- See information below on radius tops.
(Min charge for panels).

18mm Panels/Tops

25mm Panels/Tops

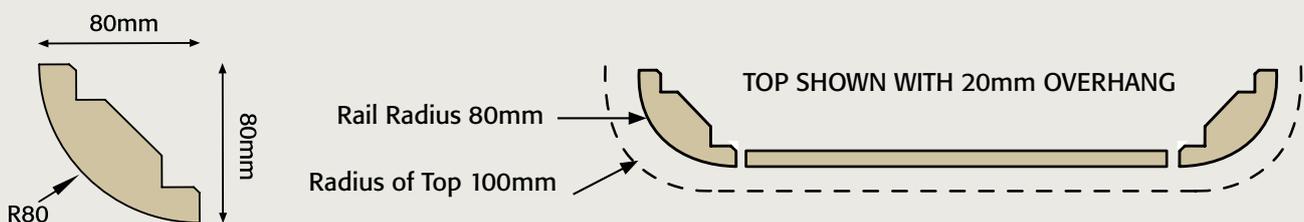

HOW TO WORK OUT A RADIUS

The radius of a circle is always half its diameter
i.e. the radius shown on the panel is 100mm.

USING RADIUS TOPS WITH RADIUS RAIL

When ordering radius tops for use with the radius rail remember if you are using an overhang the radius will increase the same as the overhang: e.g. panel shown is overhanging by 20mm, so radius at corners will be 100mm.

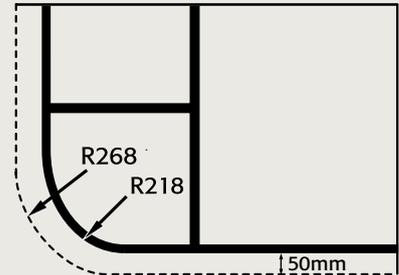

► BELLA VINYL WRAPPED PANELS & TOPS

USING RADIUS TOPS WITH CURVED DOORS

All curved doors are 298mm x 298mm and have an outer radius of 218mm. To specify the correct radius for a worktop covering a curved door the calculation is: Overhang + 218mm = Radius.

The sample shows an overhang of 50mm. Add 218mm and this will give you a radius of 268mm as shown. Radius on panel shown is 268mm.

Radius Tops											
EXAMPLE ORDER			Where a radius is chosen it must also have a profiled edge								
QTY	LENGTH	DEPTH	FRONT		BACK		RADIUS	PROFILED EDGES			
			L	R	L	R		F	B	L	R
1	1500	610	✓				268	✓		✓	

USING RADIUS TOPS AS A CORNICE

When ordering radius panels for use as a cornice on 1 end only, remember if the vinyl will be facing down as shown the profiled side you require will be the opposite. Example shown below: left hand radius door & cornice feature using 2 panels with a 40mm overhang.

Radius Tops											
EXAMPLE ORDER			Where a radius is chosen it must also have a profiled edge								
QTY	LENGTH	DEPTH	RADIUSES REQUIRED				RADIUS	PROFILED EDGES			
			FRONT		BACK			F	B	L	R
1	2000	600		✓			238	✓			✓
1	2020	620		✓			258	✓			✓

See page 57 for full accessory colour options available.

Care and Maintenance

As with all timber based items our products should not be stored or installed in a newly plastered or damp environment.

To avoid damage by excessive heat please follow these simple guidelines:

- When installing doors adjacent to ovens always ensure that doors are shielded by using heat deflector strips
- Never use any appliance which generates high levels of heat or concentrated steam (such as a toaster, kettle or pressure cooker) directly under or adjacent to a door or panel.

Gloss and matt colours

- After removing the protective film please allow the surface to cure for seven days before cleaning or wiping.
- Polishing High Gloss finishes will leave minor scratches and polish marks, this is normal with this type of finish.

To clean door surfaces:

- Wipe using a soft cloth with a mild, non abrasive, dishwashing detergent diluted in warm water. The mix should be 1% detergent to 99% warm water (not wet).
- Dry off with a soft dry cloth.
- You should never use any vinegar based detergents, solvents, abrasive detergents, white spirit, Brillo pads or furniture polish.

We have a number of Door After Care Kits available:

Gloss Door After Care Kit

- Kit includes a 235ml aerosol of VuPlex polish, micro anti scratch polishing cloth and full instructions.
- The door care kit is suitable for use with all gloss door finishes.
- VuPlex special formula cleans using safe ingredients that won't damage the surface.
- The anti static properties limit the amount of dust particles attracted to the surface that can lead to scratching.
- Accelerates the hardening process on high gloss finishes after film removal which increases protection instantly. Apply directly after removal of film.
- Leaves a coating of polymer that acts as an invisible barrier stopping small scratches & sun light fade.
- Polishes the surface leaving a high lustre streak free finish.

Supermatt Door After Care Kit

- Kit includes a 250ml spray bottle of matt laminate cleaner, microfiber cloth, magic eraser x 2 and full instructions.
- The door care kit is suitable for use with Supermatt door finishes.
- Special formula cleans using safe ingredients that won't damage the surface.
- Leaves fingerprint and streak free with a fantastic low sheen finish.

Painted Door After Care Kit

- Kit includes softwax, applicator, scotchbrite pad and touch up pen.
- Ideal for repairing scratches and scuff marks on the Pronto Thornbury and Hadley doors.
- Available in 6 colours, specify when ordering.
